The new part will be 94 feet long and three stories in leight and when parts of Top Pass. Mr. (Great Republic to the Summit hotel at Cross Bitteries). Rest and has a number of nem busy in doing the work. The new part will be 94 feet long and three stories in leight and when he new part will be 94 feet long and three stories in leight and when the new part will be 94 feet long and three stories in leight and when completed will have quite an imposing appearance.

Mr. Mile 9.

The latest invention to harge in the family dining seom is the gum board. This saves carrying the gum to bed and getting it in one had or esquitowing it in the night. It is obvious that the gum board supplies a long-felt want, and he who inverted the new fad will have the best whiches of the young ladder.

LIVE INVESTORS

Is the name of the Western Terminal Point of the proposed Crow's Nest Pass Electric Railway and is already tapped by the Pass line of the C. P. R., while the G. N. R. has already approached to within a few score of miles and must eventually pass through this admirably located town.

Lake City

Is located by the shore of Cros's Nest Lake, only a few miles east of the provincial boundary between Alberta and British Columbia, and just north of the international line. In reality, it is at the top of Canada where the majestic Rockies tower in serene-magnificance over great chasms and numerous flords, reflecting their presence on the waters of this beautiful lake. Here also are afforded the very best tasks for the daring mountain climber and for huntsman who desires to outrival the quiet ways of the Rocky Mountain goat, sheep, deer or elk, which are the monarchy thereon. In close proximity are numerous timber, mineral and fuel resources, development of which is now in its initial stages. These resources include gold quarts, coal, fron and pulp wood. Crow's Nest Lake has long been looked upon with promise as an admirable location for health and tourist resorts, and but now this promise is being realized. Plans for hotels, etc. are being arranged, as well at boat houses, and the most modern pleasure yawls will soon glide over the surface of this beautiful lake.

But a few weeks ago lots were placed on the market, and the agents have had their hands full attending to purchas-ers. Prices run from \$150 up. For further particulars apply to the agents:
